

Analytical Report: Dissolved Oxygen

Conducted by an independent laboratory

Report Date :18.01.2022
Date initiated :18.01.2022
Date completed :18.01.2022

What the test means:

The Analytical Test for Dissolved Oxygen tests for the the amount of dissolved oxygen in water, and can demonstrate an increase in dissolved oxygen over time.

Sample Description:

Sample :CELLOXY
Test Performed : Dissolved oxygen
Lot : 03.19 /015
Results :

Elapsed time (minutes)	0	15	30	60
Amount of oxygen measured (ppb)	64	3504	4138	12062

Discussion:

Twenty (20) drops of CELLOXY were added to 500 mL of purified, deionized water. Dissolved oxygen measurements were taken with Haffmans c-DGM at time 0, 15, 30 and 60 minutes.
